

FAREWELL SPEECH FOR TEACHER BY PRINCIPAL

A very good morning to all. Dear teachers and my students, we are gathered here to celebrate the farewell party of Mr. ... today. As being the principal of this college (or school), I would like to recite an honour speech at the farewell party of Mr. ... about his distinguished personality. Mr. was a most responsible teacher in my college for many years and followed his all the responsibilities as a good teacher with full commitment. I feel very sorry that today we are losing a most responsible teacher in our college however we cannot change the fate. He and his works would be always in our heart forever.

We can never forget his valuable and effective suggestions during the bad times in the college. It seems that he join the college now and the time of going off him has come very soon. He was my best teacher of the college, my guide as well as an icon to many teachers. He really deserves to hear the praiseworthy words from my voice. He deserves to hold the vital post of Vice-Principal and even a Principal in any college.

He was a role model in my college and his dedicated years of service would be live in our memory. It is our honour that a teacher from my college has been selected to work in such a great institution. This success of him is not his fate, it is his continuous and committed love for hard work. The college will never forget his distinctive disciplined framework during his all time teachership at the workplace as well as his immense contribution in the college to make a unique educational environment for the students. His all the works would be in the record and adored always. He has established his unique personality in this college. His disciplined and committed works make him different than others.

We can say him a professional teacher with qualities of a good communicator, trainer, and proficient administrator. He is a highly skilled teacher and always kept himself updated with new changes in the education field. He actively participated and supported in all the curricular and extra-curricular activities held in the college campus. I would like to say a big thank to Mr. ... for his all the supports and love to this college.

Thank you very much

FAREWELL SPEECH FOR TEACHER BY TEACHER

A very good morning to the respected Principal sir, teachers and my dear students. As we all know the reason of gathering here, I would like to speech about some nice memories of my beloved colleague at his farewell party. It is very sad to say that my colleague is going far from us and join another college. However, I am very happy also for his success and join another college as a vice-principal. He and his works would always be in our heart forever. I really liked and enjoyed his friendship for years and never know how the year has gone. Now the happy moments has been over and I am here today for his farewell.

It is not believable that I have spent lots of nice time with him however it is very true that its really been long. I still remember the first day of him when he joined the college. He met me first and asked about the Principal's office. He was very polite and well-mannered teacher throughout his teacher-ship. He came to college every day at a right time and in a disciplined manner. He never got late and inspired students too to never get late. He was the best teacher of the college who taught every one of us to be on time and follow all the etiquette. He is like my brother who sits and talks many times in his spare time of the college.

He is very much liked by the students because of his nice behaviour, disciplined nature and way of dealing with them. He becomes always full of ideas and things as well as keeps himself up-to-date which makes him different than others. In the early days of his joining, it took some time for me to understand him. He taught students in their own way and what they need. He always helped us in our difficult times and made us able to face more difficult situations. He is the man with a combination of energetic, enthusiastic, honesty, love, disciplined, and inspirational for all the students. He has left many memories in my mind which makes me happy. I never forget black coffee with him in the staff-room. Lastly, I want to say that I would be grateful to you forever for your encouraging and inspiring company.

Thank You

FAREWELL SPEECH FOR TEACHER BY STUDENTS

A very good morning to the respected Principal sir, teachers and my colleagues. My name is... and I study in class... At this farewell ceremony of our teacher, Mr. ..., I would like to speech about my feelings to him. Dear friends, how sad the moment when we are doing the farewell of our best teacher. However, we should not be sad and give him a nice farewell happily. He would be our best teacher forever and would be in our memory as well. Today he is the guest of honour at his farewell. I know that all of us today are very sad as we are missing our best teacher of the college. But I am lucky one expressing my views to him here in front of you all. On the one hand, we all are sad, however, on the other hand, we all are happy for his promotion as a vice-principal in other big institution.

He was our most dedicated teacher who always taught us to follow discipline and etiquette. He has contributed a lot to our college in the field of education and other recreational work. He made very interesting and easy our all the events celebrations in the college through his dedicated support and creative mind. I still remember my first day in this college in class 9th standard. I was very fed up because of being a new comer in the college. He helped me a lot and developed confidence within me. He taught me to be happy and confident. Really, I never can forget that moment with him. We also enjoyed a nice tour to Nainital with him last year. He is my excellent Physics teacher who made this boring and difficult subject really very easy and interesting. He has changed our mindset towards study by telling us ways for effective learning. He is like a father figure for us, he behaved to us like a friend when we need a friend, like an educationist during study time however behaved strictly when we were wrong. He is very appreciative and inspiring in nature and well-deserves the promotion.

He was very responsible and supported me a lot in completing my projects works. All his extraordinary qualities make him different than others in the college.

Thank you
